	APPROVAL OF STATE ENGINEER
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
he	owing limitations and conditions: This permit is issued subject to all existing ghts on the source. It is understood that the amount of water rein granted is only a temporary allowance and that the final water ght obtained under this permit will be dependent upon the period of e and the average number of livestock served from the waters of
th	is source. It is further understood that this right must allow for
<u>a</u>	reasonable lowering of the static water level at permittee's well
du	e to any other ground water development in the area. The well
sh	all be equipped with a 2-inch opening for measuring depth to water.
Ιf	well is flowing, a valve must be installed and maintained to
pr	event waste. The State retains the right to regulate the use of
th	ne water herein granted at any and all times but does not take
re	sponsibility for the use of the Federal range.
The	e amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and
not	to exceed 0.025 cubic feet per second or sufficient water to
	ater 800 head of cattle.
